Safeguarding Statement

At St Luke's we respect and value all children and are committed to providing a caring, friendly and safe environment for all our pupils so they can learn, in a relaxed and secure atmosphere. We believe every pupil should be able to participate in all activities in an enjoyable and safe environment and be protected from harm. This is the responsibility of every adult employed by, or invited to deliver services at St Luke's. We recognise our responsibility to safeguard all who access our school and promote the welfare of all our pupils by protecting them from physical, sexual or emotional abuse, neglect and bullying.

Vision Statement

We work together to build long lasting, positive relationships. We have the confidence and resilience to succeed and overcome difficulties throughout life. We aspire to achieve our dreams by looking after our mind, body and spirit.

Your beginning will seem so small, since your future will flourish – Job 8:7

Policy Intent Statement

At St Luke's, we are committed to promoting positive mental health and emotional wellbeing to all children, their families and members of staff and governors. Our open culture allows pupils' voices to be heard, and through the use of effective policies and procedures we ensure a safe and supportive environment for all affected - both directly and indirectly - by mental health issues.

Scope

This policy is a guide to all staff – including non-teaching and governors – outlining our approach to promoting mental health and emotional wellbeing. It should be read in conjunction with other relevant school policies.

Policy Aims

- Promote positive mental health and emotional wellbeing in all staff and children
- Increase understanding and awareness of common mental health issues
- Enable staff to identify and respond to early warning signs of mental ill health in children
- Enable staff to understand how and when to access support when working with young people with mental health issues
- Provide the right support to children with mental health issues, and know where to signpost them and their parents/carers for specific support
- Develop resilience amongst children and raise awareness of resilience building techniques
- Instill a culture of staff and children's welfare where everyone is aware of signs and symptoms with effective signposting underpinned by behaviour and welfare around school

Key Staff Members

This policy aims to ensure all staff take responsibility to promote the mental health of students, however key members of staff have specific roles to play:

Designated Safeguarding Lead (Gemma Ackroyd)
Deputy Designated Safeguarding leads (Bev Howard and Rachel Spencer)
Pastoral Lead (Lynsey Hodgson)
Named Person (PIW) (Claire Dignam)
Adult Mental Health First Aiders (Sue Aldridge and Claire Dignam)
Child Mental Health First Aiders (Lynsey Hodgson and Louise Dempsey)
SENCO (Becky Cheeseman)
PSHE lead (Gemma Ackroyd)
Link Governor (Louise Dempsey)

If a member of staff is concerned about the mental health or wellbeing of a child, in the first instance they should speak to the Child Protection Team. If there is a concern that the child is high risk or in danger of immediate harm, the school's child protection procedures should be followed. If the child presents a high-risk medical emergency, relevant procedures should be followed, including involving the emergency services if necessary.

Individual Care Plans

When a child has been identified as having cause for concern, has received a diagnosis of a mental health issue, or is receiving support either through CAMHS or another organisation, it is recommended that an Individual Care Plan should be drawn up. The development of the plan should involve the pupil, parents, and relevant professionals.

This plan should include:

- Details of the child's situation/condition/diagnosis
- Special requirements or strategies, and necessary precautions
- Medication and any side effects
- Who to contact in an emergency
- The role of the school and specific staff

Teaching about Mental Health

The skills, knowledge and understanding our children need to keep themselves - and others - physically and mentally healthy and safe are included as part of our PSHE curriculum.

Additionally, we will use such lessons to provide children who do develop difficulties with strategies to keep themselves healthy and safe, as well as supporting children to support any of their friends who are facing challenges.

Signposting

We will ensure that staff, children and parents/carers are aware of the support and services available to them, and how they can access these services. Within the school (e.g. during parent drop in sessions/adult classes) and through our communication channels (newsletters, website, Facebook page), we will share and display relevant information about local and national support services and events.

Support at School

Nurture support is available for children identified as being vulnerable to mental health issues. Children who are going through difficulties such as family illness, separation, bereavement, or other stressful situations are supported with small group work with our pastoral team or specialist groups.

Warning Signs

Staff may become aware of warning signs which indicate a child is experiencing mental health or emotional wellbeing issues. These warning signs should always be taken seriously and staff observing any of these warning signs should alert the designated child protection lead/ named persons.

Possible warning signs, which all staff should be aware of include:

Physical signs of harm that are repeated or appear non-accidental
Changes in eating / sleeping habits
Increased isolation from friends or family, becoming socially withdrawn
Changes in activity and mood
Lowering of academic achievement
Talking or joking about self-harm or suicide
Abusing drugs or alcohol
Expressing feelings of failure, uselessness or loss of hope
Changes in clothing – e.g. long sleeves in warm weather
Secretive behaviour
Avoiding PE or getting changed secretly
Lateness to, or absence from school
Repeated physical pain or nausea with no evident cause
An increase in lateness or absenteeism

Targeted Support

We recognise some children and young people are at greater risk of experiencing poorer mental health. For example, those who are in care, young carers, those who have had previous access to CAMHS, those living with parents/carers with a mental illness and those living in households experiencing domestic violence.

We ensure timely and effective identification of children who would benefit from targeted support and ensure appropriate referral to support services by:

- Identifying children who are showing early signs of anxiety, emotional distress, or behavioural problems;
- Providing specific help for those children most at risk (or already showing signs) of social, emotional, and behavioural problems
- Working with Children's Services, CAMHS and other agencies services to follow protocols including assessment and referral
- Discussing options for tackling these problems with the child (where appropriate) and their parents/carers.
- Agreeing an Individual Care Plan
- Providing a range of interventions
- Providing children with clear and consistent information about the opportunities available for them to discuss personal issues and emotional concerns
- Providing children with opportunities to build relationships, particularly those who may find it difficult to seek support when they need it
- Any support offered will take account of school policies regarding confidentiality

Managing Disclosures

If a child chooses to disclose concerns about themselves, or a friend, to any member of staff, the response will be calm, supportive and non-judgemental. All disclosures will be recorded confidentially on CPOMs.

Confidentiality

If a member of staff feels it is necessary to pass on concerns about a child to either someone within or outside of the school, then this will be first discussed with the child (where appropriate). It is important to also safeguard staff emotional wellbeing. Safeguarding supervision between the named persons relieves the burden of concerns and also ensures continuity of care should staff absence occur. It also provides opportunities for ideas and support.

Parents would be informed if concerns are raised about a child's mental health. If a child gives us reason to believe that they are at risk, or there are child protection issues, parents should not be informed, but the child protection procedures should be followed.

Whole school approach

Working with parents/carers

We are mindful that for a parent, hearing concerns about their child can be upsetting and distressing. They may therefore respond in various ways which we should be prepared for and allow time for the parent to reflect and process the situation.

Signposting parents to other sources of information and support can be helpful in these instances. Lines of communication will be kept open should the parents have further questions or concerns. A record of the meeting and points discussed/agreed are added to CPOM's and an Individual Care Plan created if appropriate.

Supporting Parents/Carers

We recognise the family plays a key role in influencing children and young people's emotional health and wellbeing; we will work in partnership with parents and carers to promote emotional health and wellbeing by:

- Ensuring all parents are aware of and have access to promoting social and emotional wellbeing and preventing mental health problems
- Highlighting sources of information and support about common mental health issues through our communication channels (website, newsletters, Facebook page etc.)
- Offering support to help parents or carers develop their parenting skills
- Ensuring parents, carers and other family members living in disadvantaged circumstances are given the support they need to participate fully in activities to promote social and emotional wellbeing

Training opportunities for staff who require more in-depth knowledge will be considered as part of our performance management process and additional CPD will be supported throughout the year where it becomes appropriate due to developing situations with one or more students.

Supporting Peers

When a child is suffering from mental health issues, it can be a difficult time for their friends who may want to support but do not know how. To keep peers safe, we will consider on a case by case basis which friends may need additional support. Support will be provided in one to one or group settings and will be guided by conversations by the child who is suffering and their parents with whom we will discuss:

- What it is helpful for friends to know and what they should not be told
- How friends can best support
- Things friends should avoid doing / saying which may inadvertently cause upset
- Warning signs that their friend needs help

Additionally, we will want to highlight with peers:

- Where and how to access support for themselves
- Safe sources of further information about their friend's condition
- Healthy ways of coping with the difficult emotions they may be feeling

Training

As a minimum, all staff will receive regular training about recognising and responding to mental health issues as part of their regular child protection training to enable them to keep pupils safe. We have a number of trained Mental Health First Aiders for both staff and pupils to access as needed.

School received the Positive Parental Engagement Mark of Excellence in July 2021 following the engagement of the Pastoral Lead and PIW on a yearlong Social, Emotional and Mental health training course.

Staff Mental Health

We recognise that anyone can experience mental health issues for various reasons which may be out of their control. There may also be work related factors that could contribute to poor mental health such as work life imbalance, work load pressure, poor working conditions. To every extent possible, we aim to recognise and address cases of workplace pressures that contribute to mental health issues.

We aim to:

- Treat staff mental illness seriously
- Proactively support resolution of issues causing concern
- Support staff members who face mental health problems
- Create pleasant workplaces
- Encourage communication

Policy Review

This policy will be reviewed every two years as a minimum.
